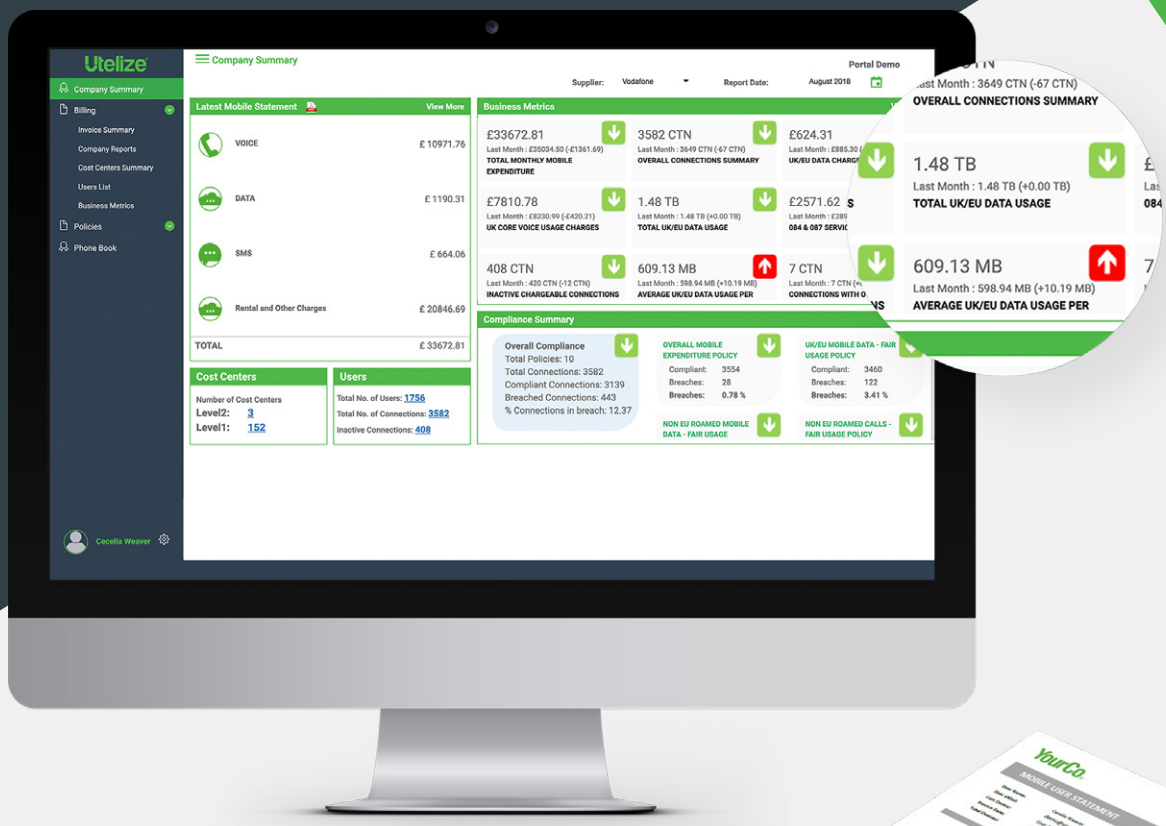
INVIEW MOBILE PORTAL & REPORTING SERVICE



INVIEW MOBILE

SERVICE SUMMARY

Gain complete control of your mobile costs, usage and inventory with the help of Utelize and our innovative **Inview Mobile Portal**. The **Inview Mobile portal** provides a simple to use platform that enables IT and Finance teams to effectively manage their mobile estate and optimise costs. Helping your business to rapidly identify and remove unused services and excess costs, optimise tariffs and data plans and to distribute accurate management reports and statements to your cost centres and end users.

The **Inview Mobile Portal** supports all UK mobile networks, offering a wide range of tools and features to ensure your mobile costs and inventory are kept under control at all times. As part of the service our analysts will also review your mobile costs each month, to ensure that you are always up to speed with any recommended actions or usage issues across your mobile estate.

OPTIMISING ENTERPRISE MOBILE

Enabling productive and secure remote working has never been more relevant and important than it is today. However; IT decision makers are facing a wide range of new challenges when it comes to managing their remote workforce and mobile IT:

- **Delivering high quality connectivity and support for all users across many different locations**
- **Providing stable, secure and high-speed remote access to company resources, servers and data**
- **Making sure that mobile costs and usage don't spiral out of control, at a time when budgets simply have to be met**

Experienced IT leaders recognise that to control mobile costs and usage, they require both accurate and informative management reports as well as the time and resources to act upon any highlighted issues.

By partnering with Utelize, you'll immediately gain access to clear and meaningful mobile reporting and inventory tools that work across all UK networks and suppliers, as well as proactive cost analysis and optional implementation resources to take action to keep costs optimised.

TAKE BACK CONTROL WITH INVIEW MOBILE
